REPORT OF SCHOOL BOARD

Another school year has come to a close, and we are glad to report progress toward better schools.

We believe the Superintendent and Teachers have all put forth their very best efforts. Your School Board has tried in every way to support them; and we believe we have had the loyal support of the parents and pupils.

The greatest help for our schools comes not from the teachers and Superintendent alone; but by the co-operation of the parents and the public in general with the School Board. We welcome your suggestions and criticisms with the hope they may be of benefit to our educational system.

During the past year we have settled the controversy over the old school building in Suncook village, by the payment of \$450.00. The School Board deemed this settlement advisable, and on advice of Counsel settlement was made. For the past two years the old school building has been used for Athletic purposes; but very little has been done in the way of repairs to the building owing to the controversy as to the ownership. Your School Board would now recommend this building be repaired so as to make it suitable for use as a Hall in which to hold our Grammar graduation or any other school activities. Also that the building might be used as a community building for any public service; and especially for the use of our boys and girls for athletic purposes. We believe one of the greatest needs of this community—is a place for good wholesome amusements for our young people. We hope you will give this matter your earnest consideration.

Respectfully submitted,

FRED W. SALTMARSH,
ELLEN E. HOBBS,
HENRY P. COFRAN,
School Board.

FINANCIAL REPORT

RECEIPTS

Estimate to complete present school year to July 1, 1927	\$2,500.00

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens:

I herewith submit my fourteenth annual report of the schools of Pembroke.

There were maintained during the year, nine schools for a school year of 36 weeks with no change in the teaching force.

The school enrollment was 193 (110 boys and 83 girls) with a daily average attendance of 93.31 per cent.

The schools were in session on an average 344.92 half-days.

It is reasonable to expect that an average daily attendance of 98 per cent and yearly average sessions of 350 half days may be attained in the coming year.

I quote somewhat freely from the Report of the State Board of Education for the Biennial Period ending June 30, 1926; for the purpose that citizens and parents may more fully understand the duties which they are to perform in the making of good schools.

"School Year

When the 1919 school law was enacted, no feature seemed more chimerical to school board members and others familiar with New Hampshire country life than the standard that all children should have schools for at least 36 weeks each year. It was believed that for all time farm children, because of difficulties of travel and weather, must have less schooling than their urban cousins. It was held that farm children could not be spared from home duties, that roads were impossible and that weather conditions were beyond control. Accordingly the law provided that on petition, the State Board of Education for unusual circumstances, might shorten the school year for specified schools.

In one respect the record for 1925 was not a satisfactory one. In a number of towns there were scattered cases of

scarlet fever in the spring months. This resulted in a degree of panic in some places and closed schools. In others, the school boards and health officers were wiser. Schools were kept open, all pupils watched carefully for the isolation of incipient cases and the disease promptly stamped out.

In 1926 school boards consistently refused to be stampeded by contagious diseases and every school in the state was open for the full year.

A plan which is gaining approval among school boards is to contract for 360 half-days of service in 37 working weeks. By this plan, every day lost for any cause may be made up. Some of our school boards, through carelessness, are permitting many half-days each year to be lost."

"School attendance

The New Hampshire school attendance law is very simple. All children must attend a public or an approved private school every day that the school is in session from their eighth to sixteenth birthdays, or to their fourteenth birthday if they have then completed the eighth grade. There is no excuse except physical or mental incompetence. Neither poverty of parents nor isolation of the home may stand in the way. At least eight years of schooling is an inalienable right of New Hampshire children.

For thirty years this law has been unchanged and has been enforced. For this purpose, each district has its own truant officer. Commonly these men are vigilant and effective. The cities are particularly well served. In the small towns often difficulties arise due to the fact that the truant officer and the negligent parent are neighbors or relatives and an official act is likely to be regarded as a personal one. For this reason we have many calls for aid from a state attendance officer."

"Cost of Instruction in Schools	Per Pupil
One-room schools . . .	\$49.13
Village elementary schools	34.21
City elementary schools	43.32

This table gives the average cost per pupil for instruction in elementary schools of the three types. The salary of the teachers is the only item of instruction considered. The teachers in the rural schools are the lowest paid but the small size of the school makes the per pupil cost very high. It is even higher than in city schools where teachers may receive double the salary.

Experience shows that with fewer than 10 pupils a satisfactory school can seldom be maintained, and for the best work a school should enroll at least 15. Yet 100 schools number fewer than 10 and 150 more fewer than 13. Nearly all of these are rural schools. Business economy and educational efficiency require for these schools the consideration of transportation rather than local school maintenance. On the other hand, a one-room rural school which enrolls 25 pupils or over needs a particularly competent teacher or division, with the transportation of upper grades to another school. One-room schools are expensive. We believe, however, that they should be maintained when sufficient children can be gathered to make a real school.

In any attempt to reduce the cost of schools, attention should be given to the very small schools. It is evident that in a school of 6 pupils the per pupil cost of maintenance alone will average \$120.00.

MUSIC

The work in Music under the instruction of Miss Kate L. Smith was commendable. Her report, which follows, gives detailed information.

MANUAL TRAINING

This department of work has been conducted by three cadet teachers from the Keene Normal School, each cadet teaching for a period of nine weeks. The work done is that outlined at the Keene Normal School. Each cadet is informed of the work done by his predecessor, and instructed in the work he is to do, in order that the class-room

work may be continuous. Under this plan good results have been attained.

HEALTH INSPECTION

Health inspection was conducted by Miss Katherine A. O'Donnell, R. N., of Manchester, N. H. In Miss O'Donnell's appended report you will find her work in detail.

I believe it is generally acknowledged that no problem of school management is of more importance than the care of conditions effecting the physical welfare and health of the pupils.

TEACHERS' MEETINGS

At these meetings able and instructive addresses were given by Dr. E. W. Butterfield, Commissioner of Education, "A Worthy Use of Leisure Time;" Headmaster Harold M. Smith of Pembroke Academy, "English;" Miss Phila Griffin, State Agent for Rural Schools of New Hampshire, "History;" Miss Bernice Batchelder, former instructor in Bridgewater, Mass., Normal School, "Geography;" William Y. Morrison, State Agent for High Schools of New Hampshire, "The Development of Teachers" and Louis P. Benezet, Superintendent of Schools of Manchester, "Reading."

At other meetings the subject of Economy was discussed as shown in the use of a daily time-table of recitations, in the distribution of scholars supplies, and in the care and use of text-books.

These meetings serve a useful purpose in keeping alive a professional spirit and in improvement in school management and methods.

Various standardized tests were given throughout the year with emphasis placed upon the fundamental processes in Arithmetic.

The teachers were faithful and generally efficient and improved their work through attendance at summer schools, teachers institutes, and by reading books and magazines on education.

Parents and citizens are cordially invited to visit the schools frequently.

In conclusion I express my appreciation for your co-operation and assistance.

Respectfully submitted,

HENRY S. ROBERTS.
Superintendent of Schools.

REPORT OF SUPERVISOR OF MUSIC

We trust the readers of this report will look on it as one of a series, reporting progress along our particular branch of school work. Taking as our motto, "The Study of Music Exalts Life," our schools are each working to master the art of music, and they take pride and pleasure in preparing these public recitations which we present from time to time and national song week, and to which you are cordially invited.

The eighth grade has its graduating program to prepare, this being the crowning event of the school year. All in all a careful review of the present work is gratifying, and we express our thanks to each and all for the interest taken in the music course of Pembroke Schools.

Respectfully submitted,

KATE L. SMITH.
